

FLOOR MAINTAINER

Marble • Vinyl • Rubber • Stone • Sealed Wood

USES

Floor Maintainer is a floor maintainer that recoats and repairs floors to leave a flexible, slip resistant finish. Keeps floors at the peak of their appearance and restores those that are losing their shine.

The fragrant, low viscosity, opaque, rose-coloured liquid can either be applied with a mop and left to dry or used through spray cleaning equipment.

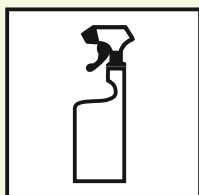

Suitable for use on marble, terrazzo, linoleum, vinyl, rubber, tiles, sealed wood and sealed cork.

DIRECTIONS

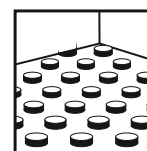

Shake before use and dilute according to the job. Always brush floor to remove loose debris prior to application. Clean heavily soiled floors prior to application.

SPRAY CLEANING/BURNISHING - Spray *Floor Maintainer* solution onto the immediate floor area. Allow a few seconds contact time and burnish the floor dry.

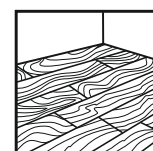

DAMP MOPPING - Apply *Floor Maintainer* solution using a mop, agitate and remove any excess liquid. Allow the floor to dry. Machine burnish for a high gloss.

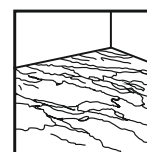

AREAS OF USE

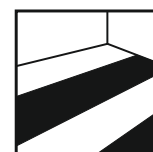

Rubber

Wood

Marble

PVC

DILUTIONS

FLOOR MAINTAINER:WATER	SPRAY BURNISHING 1:10	DAMP MOPPING 1:20
