

EXTRACTION CARPET CLEANER

Carpets • Upholstery

USES

An extraction cleaner detergent designed for cleaning carpets and upholstery using the spray extraction technique.

A low viscosity, clear, green liquid, *Extraction Carpet Cleaner* can be used as a pre-spotter for breaking up greasy deposits before cleaning.

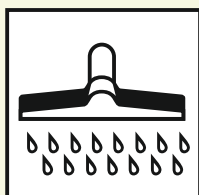

Ideal to clean and revitalise carpets, upholstery and all materials that can tolerate water.

DIRECTIONS

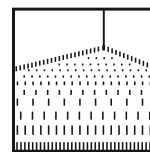

Thoroughly vacuum the carpet before application and spray heavily soiled areas with a solution of *Extraction Carpet Cleaner*. Apply using a professional spray extraction machine. Do not rub the carpet; use the spray extraction lance in a slow steady motion. Extract as much liquid as possible. Allow the carpet to dry thoroughly before replacing furniture.

N.B. Always test for colour-fastness before use: dip a white cloth in a solution of *Extraction Carpet Cleaner* and rub into a small unobtrusive area of carpet. If any colour comes out of the carpet onto the cloth, do not use.

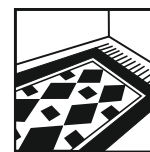

Do not use on materials that must be dry cleaned.

AREAS OF USE

Carpets

Rugs

DILUTIONS

EXTRACTION CARPET CLEANER : WATER

Normal use 1:80	Heavy duty 1:40	Pre-spotting 1:5
